

Site Supervisor / Lead Carpenter

Woodmeister Master Builders is a high-end residential master builder and millwork company providing fine quality home building, renovations, custom cabinetry and architectural woodworking for discerning clientele.

We are currently seeking a Site Supervisor / Lead Carpenter for our field operations team. This is a growth opportunity for an effective professional to plan, manage and execute projects to Woodmeister's exacting standards.

Position:

The Site Supervisor / Lead Carpenter is responsible for working with designers, project managers and customers, managing the day-to-day operation of the job site from launch through completion, directing and monitoring the progress of subcontractors, keeping the project on schedule.

Knowledge, Skills & Abilities:

- Thorough understanding of the construction industry, especially residential construction, including carpentry, plumbing and electrical trades.
- Obtain needed permits, manage the layout, cleanliness and safety of the jobsite.
- Manage subcontractors, maintain the schedule, and ensure that work is completed on-time and to Woodmeister's standards of quality and customer satisfaction.
- Demonstrated relationship skills: able to negotiate, influence, resolve conflicts and work effectively with customers, technicians, and subcontractors.
- Have at least 7 years of demonstrated high-end residential construction experience, the ability to develop effective relationships with customers, designers and subcontractors and the leadership to bring projects in on time and at budget.
- NARI Lead Carpenter certification is a plus.

If you are committed to excellence and complete customer satisfaction, and are ready to take your skills to the next level, this may be your opportunity. In addition to a competitive salary and benefits package, we offer a growing, entrepreneurial environment, which recognizes and values your contributions.
